

## When it comes to managing your patients with large surface wounds and burns

# Bigger is Better!

Burns

Pressure Ulcers

Leg Ulcers

A bigger unit dose in a tub, can be better for your patients' care. MEDIHONEY® Gel in a 400g Tub is the only single patient, multi-dose unit product for use on your patients with large, moderate to heavily draining, partial to full thickness wounds and burns.

- Contains 100% Active *Leptospermum* (Manuka) Honey
- Larger unit dose designed for ease of use on large wound and burn surfaces and patients with extended care needs
- Promotes a moisture-balanced environment optimal for wound healing<sup>1-7</sup>
- High osmolarity aids in autolytic debridement and the removal of necrotic tissue<sup>2, 3, 6, 8-12</sup>
- The application of MEDIHONEY is associated with lower pH levels<sup>13, 14</sup> within the wound which has been shown to have wound healing benefits<sup>15-17</sup>
- Convenient single patient, multi-dose use unit

**MEDIHONEY® – Committed to bringing you quality, versatility and innovative solutions for your patients' care throughout the continuum.**
